

Customer Need **Interpretation**

	Customer Statement		Customer Needs
1.	Not efficient removal of dirts	1.	Equipment should be efficient in cleaning
2.	Cost should be equivalent to doormats	2.	Low Cost
3.	Collection of dirt in collector should be managed properly(no overflow)	3.	Equipment should have dirt collector made in such a way that it does not make the place dirty and properly one can remove dirts from it
4.	Time taken by machine should be less	4.	Equipment should work quickly(not more than 5 sec)
5.	Equipment should be portable for households	5.	Design of the equipment should be made specific for households and malls accordingly.
6.	Power consumption should not be high	6.	Equipment's power consumption should be low
7.	Electric shocks due to wet shoes in the rainy season should not occur.	7.	Equipment should be free from electric shocks
8.	Height of the machine should not be too high to make sure kids and old aged people use it with ease.	8.	Dimensions of the equipment should be ease with all age group.

According to order of importance:

1. Electric shock free
2. Dirt collector size
3. Highly Efficient
4. Low Power consumption
5. Friendly to all age group
6. Time consumed by machine
7. Low Cost
